## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3 - 21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 12, for example which include a method for assembling an optical device having a first lens assembly and the second lens assembly coaxially with the optical filter facing the second lens assembly and encapsulating the first lens assembly and the second lens assembly in a sleeve (claim 1); and a sleeve to encapsulate the first and the second assemblies that are so adjusted in such way that the second assembly is laterally off the mechanical axis of the first assembly as a result any light beam refracting from the first assembly collected with a minimum loss by the second assembly (claim 12) (note: claim 12 allowed previous office action).
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
